

2022 NAEH e-Conference: Exploring Spiritual Purpose

Exploring Spiritual Purpose is a “big topic.” The 2022 NAEH e-Conference provides several experiential activities that lead us through this exploration:

- **Transitions-** Individually, globally, and cosmically, we are all going through transitions at a tremendous pace. Two conference presentations will address this topic. New this year, the audience will be asked to submit their own ideas and experiences they’ve found helpful when navigating their own transitions (chat submissions during breaks, with shared document of these submissions).
- **Exploring spiritual purpose also involves personality integration.** Two Esoteric Healing practicals address the topics of alleviating worry, providing support when people get “stuck,” and supporting personality – soul integration and spiritual purpose.
- **New this year are multiple “How-To” activities that help us to know ourselves better, to open to creativity and to explore spiritual purpose.** Attendees will have the opportunity to attend one of the following activities/presentations: The Art of Spiritual Journaling; Esoteric Astrology; Integrative Breathwork; or Spiritual Dance/Movement. All concurrent “How-To” activities will be recorded and included as part of your purchase of the conference videos.
- **Several meditations** will lead us through creative, guided, chanting, and esoteric ways of opening to the soul to explore spiritual purpose. We are changed when we meditate together.
- **World Service – Our Duty and Responsibility** is presented by Al Florey, author and teacher of the Ageless Wisdom Teachings. “Magnetic Healers” is the name of one of the ten “seed-groups” that the Masters of Hierarchy plan to externalize on earth and work with to advance the human race. This presentation is a discussion of the opportunity before us as esoteric healers to form a Magnetic Healers’ group for the healing of the human personality.
